## The President's Message

The Four County Community Foundation continues to grow and support the six surrounding communities. At the beginning of 2006, our assets have passed the 9.5 million dollar mark and we fully expect to break 10 million this year. When I joined the Board in 1999 our goal was to reach the 6 million dollar mark and in just six years it is approaching 10 million.

The Four County Community Foundation issued 295 grants in 2005 totaling \$330,000 distributed for seniors, youth, environmental enhancements, the arts, community projects and scholarships. Since the beginning of the Foundation in 1987 it has given in excess of 4 million dollars to the local communities.

In March of 2006, the Four County Community Foundation achieved compliance with National Standards for U.S. Community Foundations. These standards assist community foundations in establishing legal, ethical and effective operating practices. Five hundred community foundations across the country are participating in this process.

We have a very dedicated Board of Directors and a very professional and capable staff, who work very hard in supporting our mission.

We continue with our mission: For good. For ever.

Charles Schiedegger, FCCF Board President

## Imlay City Historical Commission Endowment Fund

The Imlay City Historical Commission was established in 1969 in preparation for Imlay City's centennial celebration. The Commission's original purpose was to plan and carry out activities recognizing the 100<sup>th</sup> anniversary of the city. That event in 1970 proved to be a great success and generated a tremendous sense of community pride and "coming together for a common cause" by area residents.

The Commission stayed intact, and in 1978, officials of the Grand Trunk Railroad decided that the City of Imlay City could lease the land for a period of 99 years. The City subleases the facility to the Historical Commission. Work began immediately to renovate the facility and secure donations of artifacts that were significant to the community and its residents. That sense of "coming together for a common cause," once again revealed itself through the efforts of residents to establish and open the museum. Nearly all of the artifacts on display have been donated or loaned by community residents.

In 1979, a railcar was placed on tracks located near the depot and eight years later a caboose was placed on tracks behind the railcar. The Imlay City Downtown Development Authority has recently undertaken an energetic "Main Street Program," which will revitalize the downtown district, while preserving the historic tradition and style of the village. The DDA theme is "Imlay City Historic Depot District" and the museum is becoming a major attraction in the area. The museum has recently received The County Press Reader's Choice Award as the "Best Local Museum" in Lapeer County.

Our mission is to "operate a museum and bring together those people interested in history, especially the history of Imlay City and its surrounding community; since understanding the history of our community is basic to our democratic way of life, gives us a better understanding of our state and nation, and promotes a better appreciation of our American heritage."

To this end the Board of Directors has been seeking ways to diversify its source of operational revenue. Currently, monies are provided through membership dues, donations, corporate sponsorships, and fundraisers. The Imlay City Historical Commission Endowment Fund will ensure that operating funds are available well into the future to maintain this local treasure for children and adults alike.

## For good. For ever.°

## St.Clement of Rome Church & Knights of Columbus # 7018 College Fund

A college scholarship fund has been established for Romeo High School students who attend either St. Clement of Rome or St. John and Paul Catholic Churches and live in the school district. The scholarships reward those good and faithful students who regularly attend Mass and are in need of financial assistance to pursue higher education. The first awards were made to six 2006 graduates of Romeo High School.

The initial benefactor established the fund in memory of Edward and Lillian Rumph. Edward and Lillian moved to Romeo Plank Road in 1926 with their children. The family became the sixth registered family of the church which would become St. Clement of Rome. Lillian was a member of the Altar Society and contributed her cooking skills at church picnics. Edward served as an usher and was a member of the Knights of Columbus.

The family survived the Great Depression, saving the family farm. They gave of themselves within the farming community by returning kindnesses shown to them to others who were also struggling through hard financial times.

The fund is dedicated to assisting students in pursuing higher education. All parishioners of St. Clements of Rome and St. John and Paul Catholic Churches are encouraged to support the education of the youth of their parishes. This fund will forever benefit these students.

Lillian and Edward Rumph, 1919.

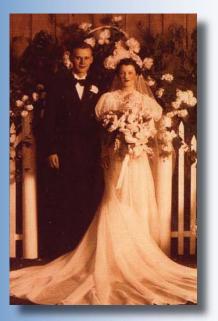

The Rumph family, 1939.

## Knights of Columbus # 7018 Roman Catholic Scholarship Fund

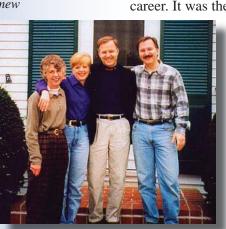

The Knights of Columbus Council # 7018 in Romeo, created a scholarship to provide financial assistance to students who attend mass regularly at St. Clement of Rome or St. John and Paul Catholic Churches, demonstrate financial need and meet other criteria. The scholarships are for students who are pursuing a Catholic education for grades  $K - 12^{th}$  or for the seminary. The Knights of Columbus encourage parishioners to support education of its student members.

## New 2005 Funds

The Waterloo Hunt Club presents a check to the Grass Lake Equestrian Team.

## Waterloo Hunt Club Donor Advised Fund

The Waterloo Hunt Club established a donor advised fund in 2005 to provide support for activities which the club members wished to promote. The first grant issued from the fund was to the Grass Lake Community Schools to support the Grass Lake Equestrian Team.

### John R. & Iris M. Bartholomew Scholarship

Iris Mae Bartholomew was a lifelong resident of Romeo. She graduated from Romeo High School in 1931 and worked as a bookkeeper until her marriage. John Ross Bartholomew was born in Gladwin, Michigan and was raised in Detroit. He graduated from Northwestern High School. He lived in Detroit until his marriage to Iris in 1939. John and Iris built a home at 187 Turner Street in Romeo where they resided until their deaths. They were both members of the First Congregational Church. They raised four children: Polly, Barb, John and Mike. John was a member of Rotary and a trustee and president of the Community Hospital in Romeo.

John and Iris were devoted and loving parents. They stressed responsibility, strong moral values, family loyalty and the importance of an education. They both were unable to attend college because finances were unavailable due to the Great Depression. John was enrolled at the University of Detroit but was unable to attend. He aspired to be an architect. Iris was interested in a nursing career. It was their dream that their children would have the opportunity to

> attend college and pursue a professional career. They worked hard to achieve this goal. It is with pride that the Bartholomew family has established this scholarship in memory of John and Iris to help a student at Romeo High achieve his or her goal to further their education.

## A Sample of Our Grants

## **Bear Lake Camp**

**B** ear Lake Camp was the site of two programs which were supported by the Foundation. The Foundation's Healthy Seniors/Health Youth Fund supported tuition for summer camp for visually or hearing impaired children. The camp is fully handicapped accessible and provides an educational and recreational experience for the youth, resulting in increased confidence and self esteem. Lions Clubs of Michigan operates the camp.

A second grant, from the Woods-N-Water News \Outdoor Foundation, provided physically challenged adults with an opportunity to hunt. Hunters and their guides spent an October weekend enjoying the outdoors, hunting on private land and staying in an accessible facility. The event was organized by the Wheelin Team 457, a unique air-rifle team sponsored by the North Branch American Legion Post 457. The Woods-N-Water News Outdoor Foundation is dedicated to preserving the outdoor traditions of Michigan.

### Concerts: A Sense of Community

A lmont's Concerts in the Park continues to create a place for the community to keep in touch through the summer months. Increasing attendance attests to the program's value. Because of its success in the previous two years, two new programs were added to this year's agenda. Monday is host to Kids in the Park with programs and activities at noon and Teen Night on Friday nights which held nine concerts in its first year in addition to the Thursday night concerts.

## Through Teen Eyes – Film Projects With a Message

Macomb Academy of Arts and Sciences has received two grants for purchase of equipment for a tenth grade student project to produce documentary films. Students are involved with a group to design, edit and produce a five minute documentary. They will learn streaming video techniques and will use FLASH technology. The films were produced entirely by the students. The students worked under the tutelage of Norm Fankell, an Emmy award-winning film producer, who was an Artist in Residence and gave instruction in film production. Topics of the films were of high interest to teenagers, including such subjects as: destructive decisions, safety, driving issues, substance abuse and empathy for others. A viewing of the films is conducted each year with students, parents and other interested parties in attendance. The films are produced in DVD and VHS formats and will run on Channel 6 public access television.

## A Sample of Our Grants

## Kingsbury Environmetal Institute

Kingsbury School provided a series of three lectures thanks to funding from the Foundation. The mission of the Institute is to enhance and support community understanding of the environment through education, research and active involvement in stewardship.

The first event was "Joe Rogers and Friends" and featured a focus on natural history of birds of prey as well as the problems these birds face today. Live birds of prey that have been injured and rescued are a lively part of the presentation. The Wildlife Recovery Association has helped hundreds of orphaned and injured animals return to their natural habitat.

The second lecture was "Building 'green' now for a Sustainable Future". Elizabeth Sullivan from the Kresge Foundation shared the experience of constructing a "green" building at the Foundation's Troy headquarters. The project was an environmentally sustainable expansion to their historic office site.

The third program in the series was "Wildflowers and Native Michigan Plants". Sylvia Taylor, PhD. shared her extensive knowledge of wildflowers and native Michigan plants. Preceding the discussion was a walking tour of Kingsbury's grounds and trails with Naturalist Anne Sousanis. The Foundation is pleased to announce they have recently funded a second series of environmental lectures to take place during the 2006/2007 school year.

## Youth Development: Community and Athletics

The Foundation, as well as many other community groups, supported Dryden's Hometown Baseball organization's request to improve three **Cardinal Baseball Fields.** No more rocks on these fields to injure a knee. Plans include diamond dust, bleachers and new wiring for the pavilion.

With support from grants, **Imlay City's American Youth Soccer Organization** (AYSO), Region 1287, is working to develop 26 acres into 14 soccer fields located at Blacks Corners Road. More than 750 youth ages 4 through 18 will benefit from these fields serving students from Imlay City, Dryden and Almont. In addition to general grant support for this project, the Youth Advisory Committee generated proactive support addressing the need to fund youth recreation options in our communities as repeatedly reported by their Needs Assessment Surveys.

What would a football game be without hearing those plays? The Justin C. "Jut" Bullock Memorial Scholarship Fund supported the **Capac Athletic Boosters** with a much needed PA system. It will also serve for other athletic field events.

## Supporting Safety

**S** afety comes in many forms. In past years the Foundation has supported its communities with rescue equipment such as the jaws of life, a rescue van, and thermal imaging cameras. This year community safety needs were again answered.

It was when the state mandated electronic fingerprinting—without resources—that, Chief Eugene H. Bruns, of the **Almont Police Department**, appealed to the Foundation. Our grant served as the matching fund to obtain additional funding from the state. Without our community support, our police would still be driving to Lapeer to borrow its system at considerable time and expense. The system is shared with Dryden, Metamora, Capac and Imlay City.

**Mussey Township Fire Department** was supported by the Foundation in there needs to replace an obsolete defibrillator. The new defibrillator model was specifically selected for its ability to be used on pediatric patients as well as adults. Refresher courses are open to the community and are scheduled throughout the year.

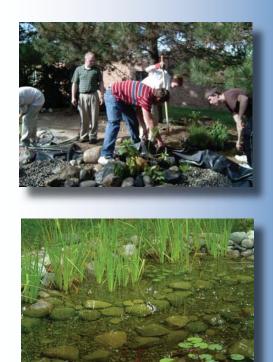

**Dryden Township Police Department** purchased defibrillators to outfit each of its patrol cars to insure quicker response-time, essential in saving lives at accident scenes and emergency health situations.

### Water Garden Project

Romeo High School students participated in a unique multidisciplinary project to design, instruct and maintain a 900 square foot pond which includes a water garden environment. A grant from the Foundation provided for the purchase of flats of Michigan native perennial wild flowers and plants.

The pond is located in the courtyard of the school. Students worked with local landscape professionals in construction, writers will create poetic pieces about the site, artists will create images of the fauna and wildlife that are present in the garden and science classes will learn about the ecology of a wetland environment. Experiments will include water quality, study of insects that the water garden draws, and a study of the various wetland plants. The new water garden will provide years of lessons and enjoyment by students and faculty alike.

## **Mission Statement**

Four County Community Foundation is committed to serving the current and emerging needs of our local community, continuing the tradition of philanthropy begun generations ago. The Foundation is dedicated to bringing together human and financial resources to support progressive ideas in education, health, community, youth and adult programs. The Foundation provides a secure, flexible vehicle for individuals, families, foundations and organizations to positively impact the quality of life in our community. The Foundation recognizes that in order to meet its commitments to the community it serves it must seek growth through its permanent endowment funds from a wide range of donors.

Catherine & Dorothy Ondersma Dr. James & Ann Sillers Bernard Stremler, M.D.

We gratefully recognize those who ensure a legacy to the Foundation by means of deferred gifts.

This special group of people is an encouragement to others to remember Four County Community Foundation in their charitable plans.

## Advisor's Circle

Professional advisors who have helped work on a major gift with their clients are recognized as members of Four County Community Foundation's Advisor's Circle, Advisors with a number after their name have worked on multiple gifts.

We *thank you* on behalf of our communities.
